Subject: Re: Temporary Access to CYC tools for Ligue 1

Figueira Decl. Tab

71

Adam,

David gets final say in whether we give them test access, but...

2 weeks is too long. The best that I can suggest, the same as Canal +, is 3 business days, with a cap on the number of claims (for Canal + it was a max of 10 over 3 days) they can make. The reasons for this, even though it is a test setup, any claims they make will have to be processed and considered as a valid take down request. We don't want them using the test period to take down every piece of content they think violates copyright. We want to minimize the number of requests, one reason being PSO has to support this and as you know we are quite strained for resources. If they want to use our tools to help them monitor copyright content and claim them, they will have to work with us as a partner.

cheers
Sathya
